The HY55-PT pallet trucks move loads with minimal operator know-how and exertion.

■ **ERGONOMICS**

Cushion handle with rubber grip
Hand & foot release design
Articulating axle
3-position control handle

■ **PRODUCTIVITY**

Quickly reaches maximum height
200 degree turning pivot
Helper rollers for easy pallet entry/exit
Adjustable push rods to level forks

■ **COST OF OPERATION**

Lowering valve controls rate of descent
In stock part availability
Self-lubricating bearings in wheels/rollers
2 year pump warranty

■ **DEPENDABILITY**

Industrial strength steel
Reinforced bulkhead base
9 inch handle base prevents bending
8 inch long reinforcement bars

■ **SERVICEABILITY**

Large, easily serviceable pump assembly
Custom handle pin design for reinforcement
Heavy steel design with easy access to push rods
All pivot points have oil-lite bushings or grease/oil fittings

INNOVATIVE TRUCKS ENGINEERED TO MEET THE MOST DEMANDING APPLICATIONS

For more than 80 years, Hyster has been conquering the world's most demanding applications. In the 1920's Hyster started as a manufacturer of lifting machines used in the rigorous logging industry of the United States' Pacific Northwest. A few years later the first fork lift trucks were invented and the Hyster brand quickly gained its reputation for rugged quality. Hyster® lift trucks are designed to lower your cost of operations. Every truck we make — gasoline, LPG, diesel and electric — is purpose-built to excel in its application. Every truck is also backed by an unmatched network of specialists.

Dealer Network — Our Dealer Network can offer the expertise of fleet managers, parts suppliers, capital procurement specialists and trainers. Hyster's carefully chosen dealers fully understand customer applications, assist in selecting the right lift truck and provide fast, reliable support.

Parts — With genuine Hyster replacement parts and UNISOURCE™ parts for all makes of lift trucks, we are your one-stop source for lift truck parts. In fact, we offer more than 2 million part number crosses for most brands of materials handling and other in-plant mobile equipment.

Service — Your local Hyster dealer offers a flexible, customized and comprehensive maintenance plan based on each lift truck's application, make, model and operation environment. Hyster service programs offer scheduled inspections and maintenance, and when you need immediate service on a fleet or single truck, your local dealer offers quick, responsive service dispatched to your location.

■ CUSTOM PALLET TRUCKS

Ideal for unusual applications when standard equipment will interfere with operation flow. Customization available for forks (length and width), lowered forks, diversified capacities, load backrests, skid adaptors, etc.

PRODUCTIVITY

WEIGH SCALE PALLET TRUCKS

Allows the operator to easily lift, transport, and weigh (to 99.9% accuracy) loads. Features an easy to read meter with a large LCD display, keypad, and automatic tare functions.

SEMI-ELECTRIC PALLET TRUCK

Designed as an economic alternative to fully electric models. These units feature standard manual pallet truck style pumping operation for lifting and lowering loads, and self-propelled movement for easy transporting of goods.

GALVANIZED & STAINLESS STEEL PALLET TRUCKS

Designed for corrosion resistant, chemical exposure environments as well as cold room temperatures.

LOW PROFILE PALLET TRUCKS

Designed for handling unconventional loads too low for standard Pallet Trucks. Available in Low, Super Low, and Low Profile 4-way (predominant in the grocery industry.)

ALLIED PRODUCTS

An impressive selection of transport, storage and material handling equipment to include Scissor Lifts, Lift Tables, Hydraulic Stackers, and space-saver equipment.

LOAD BACKREST PALLET TRUCKS

Designed to handle pallets where cargo is needed to be kept in place and stability is an issue.
